6ASI – Application and System Integration
Prelim Exam

Name	Lacsina, Quinny Joyce Ann M. Miclat, Chadle Rei
Section	WD-401
Prelim Group Name	Arcee

INSTRUCTIONS:

1. This project should be done in pairs but individual submission to Canvas is required.
2. Select an Atlassian JIRA API endpoint for each HTTP Request Type shown in the table below.
3. The HTTP endpoints you chose must be unique to your classmates. If necessary, discuss this with the entire class.
4. You can no longer utilize the GET ISSUE and CREATE ISSUE endpoints, which were part of the prior activity.
5. In the table below, document the whole URI, as well as any URI parameters and body contents (if applicable).
6. Create a screen recording of each endpoint's execution. In the recording, make sure to include the result of the API call in Postman and in Jira. (for example, show that a new issue is generated after successfully using the API endpoint).
7. You will receive 15 points for each successful HTTP request.

--------	---

Rubrics of the Exam

HTTP Type	Item	Points
GET Request		
	1. Properly cited HTTP endpoint	5
	2. Properly document HTTP request content and body	5
	3. Successful execution of the request	5
POST Request		
	1. Properly cited HTTP endpoint	5
	2. Properly document HTTP request content and body	5
	3. Successful execution of the request	5
PUT Request		

	1. Properly cited HTTP endpoint	5
	2. Properly document HTTP request content and body	5
	3. Successful execution of the request	5
DELETE Request		
	1. Properly cited HTTP endpoint	5
	2. Properly document HTTP request content and body	5
	3. Successful execution of the request	5
	TOTAL	60
